

Dear members of the EAGP,

we appreciate very much to welcome France as the first national association that has decided to be a full member of the EAGP. Thus, the process of renewing the association has begun.

Actually, we are in negotiations with several other nations of Europe to follow the French association of Geriatric Psychiatry.

Due to the efforts of our board member Horacio Firmino our 38th conference will be held in Oporto in Portugal. Moreover, in Oporto we will have to elect a new president of the association and we will celebrate 40 years existence of the EAGP.

Yours sincerely,

Ralf Ihl
President of the EAGP

NEWS

NeuGRID

The EAGP has participated at a meeting of the NeuGRID project of the EU. This project aims to develop a homogeneous data set of imaging data in dementia. For members interested in this project, please visit

WFSBP-Guidelines on dementia

The World Federation of Societies of Biological Psychiatry has published Guidelines on dementia. For its conclusions and in contrast to other guidelines, it strictly did not use primarily data of the original publications of studies.

The paper is published as:

World Federation of Societies of Biological Psychiatry (WFSBP) guidelines for the biological treatment of Alzheimer's disease and other dementias.

Ihl R, Frölich L, Winblad B, Schneider L, Burns A, Möller HJ; WFSBP Task Force on Treatment Guidelines for Alzheimer's Disease and other Dementias.

World J Biol Psychiatry. 2011 Feb;12(1):2-32.
